It is interesting to note to what extent the doctrines of evolution are taught in our higher institutions of learning. In a paper upon the "Critics of Evolution" in the may and June numbers of the American Chicago & Normand well-known Chicago & Normand well-known Chicago & Normand well-known Chicago & Normand well-known Naturalist, Prof. Lipincott says that at Harvard every professor whose departments are connected with biology—such as Gray, Whitney, A. Aggassis, Hagen, Goodale, Shaler, Farlow, and Faxon—is an evolutionist, and man's physical structure they regard as no exception to the law. They are said to be all conservative men. At Johns Hopkins University, which aims to be the most advanced in the counsry, evolution is held and the counsry, evolutionists—Leidy, Allen, Rothrock and Parker. At Yale, Michigan, Bown, Cornell, Dartmouth, Bowdoin and Prioceton Universities, the biological professors are evolutionists.
